Question & Answer:

What is an Inflatable Arch use for?

- Inflatable arch is use for Start or Finish Lines.
- It can use for Welcoming Message with Branding for visitors to the entrance
- Create Tunnels for runners or walkers to have a different ambience environment
- A good Selfie photo background
- A gigantic Branding platform for sponsor of the event

What are the Inflatable Arches available for rental?

- Item A to F are available for rental

What are the artwork file needed?

- Client to provide Ai file artwork with Cut Line/Path
- A Cut Line/ Path is a closed vector path in your design file that tells the cutter where to cut around your sticker, logo or texts
- Will forward client the chosen Inflatable Arch template for their designer to prepare the vector file artwork with cut line for production to process the stickers die cut
- EG will check client artwork to give best advice for the alignment of Text lines and maximise the Branding & Logo
- EG will forward client an Final Artwork (FA) to sign to final confirm the artwork is ready for production

What is the Production Lead Time for Stickers die cut?

- Vinyl stickers (refer to Oracal 651 color chart) die cut stickers is 3 working days
- Digital print on clear stickers or digital print on matt stickers die cut stickers is 5 working days
- Manpower to stick stickers on Inflatable Arch in warehouse is 1 working day so that we do not have to waste time on actual setup date as most of the setup time for Running Event is early in the morning

What is the Setup time and Dismantle time?

- Client to provide 13amp power point at the exact location of the Inflatable Arch.
- Setup time is 1 hour
- Dismantle time is 30 minutes

EVENT GALAXY PTE LTD

Company Registration No. & GST No: 201222347K

What is the Power needed for the Inflatable arches?

- Constant Air type mean the Inflatable Arch will need one Blower to continue inflate air into the Inflatable Arch to keep it inflated
- Need one 13amp power point at the Inflatable Arch location
- Specification of Blower: 240 voltage, 1100 wattage, 50 Hz

Can the Inflatable Arch to be lighted?

- Yes! We can put the Led RGB spot light inside the two ends to light up the Inflatable Arch
- Client can choose what color light to light up the Inflatable Arch
- Standard practice is to have LED changing light which has the most vibrant light effect
- Client will need to provide 2 power point for two ends of the Inflatable Arch

What is the Size/Shape available?

- Inflatable Arch size range from 3m width to 12m width
- Common Shape is Semi Round Shape, follow by Polygon Shape or Double Legged Polygon shape
- We can provide different shape like: Square Arch shape, or custom made shape

What is the Production Lead Time for Custom made Inflatable Arch?

- Custom made Inflatable Arch Production Lead time is 2 weeks
- Air Freight Lead time is 1 week
- Express Charge of estimate \$800 for taking flight to collect direct from production factory and fly back the next day
- Client to provide Ai file of Front & Back Artwork

Your Existing In-Stock for rental is not what I want, do you have other size, type or color for rental & what is the cost & what is the production lead time?

- Below have example of different shape & size
- Please let us know so that we can quote

HANGING BANNERS

Square Angle Hanging Banner

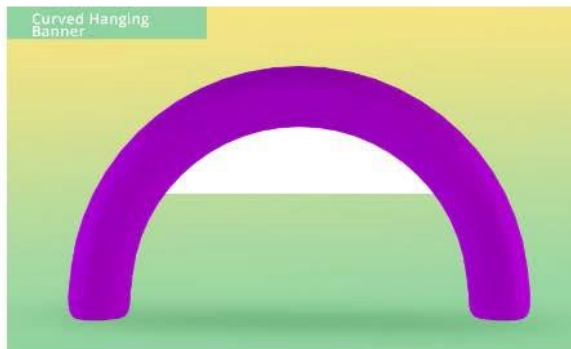

Square Angle Hanging Banner.

Removable Double sided hanging banner.

Available on Arches from 7m width and above.

(possibly available on smaller width arches by adding additional height to allow for banner)

Curved Hanging Banner

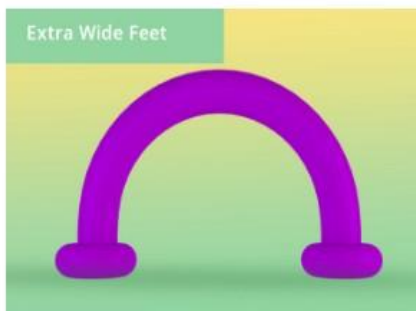

Curved Hanging Banner.

Removable Double sided hanging banner.

Available on Arches from 7m width and above.

Extra Wide Feet

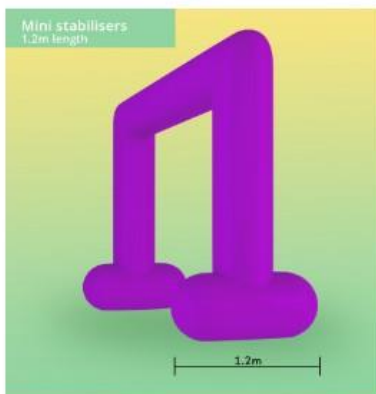

Extra Wide Feet.

This enhancement is purely for cosmetic reasons and holds no difference to the erecting or standing of the arch.

This extra is NOT available on sealed arches.

Mini stabilisers
1.2m length

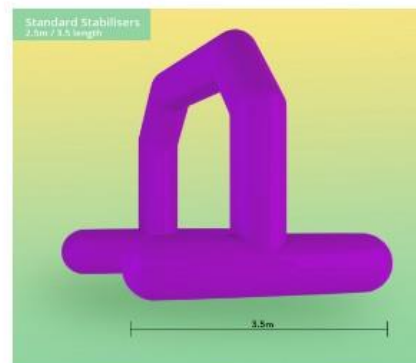

Mini Stabilisers

Available on all size arches, in both materials. 1.5m length.

This optional extra allows the arch to be self standing and allows it to be erected by only 1 person.

We still recommend using tether lines to secure the arch to the ground.

Standard Stabilisers
2.5m / 3.5 length

Standard Stabilisers

Available on all size arches and in both materials.

Again allows the arch to be self standing and erected by only 1 person.

Arches up to 7m wide = 2.5m length

Arches 8m wide and above = 3.5m length

Constant air arches zips are located along the base of each stabiliser so sandbags can be inserted.

We still recommend using tether lines to secure arch to ground.
